

BRAND PRESENCE & WEBSITE

Proposal

& OPPORTUNITY PLAN

Handa na ba ang brand ninyo sa unang customer mula *Google*?

Kapag may nag-search para sa service na ino-offer ninyo, lumalabas ba ang business ninyo, at nagbibigay ba ito ng tiwala?

THEY SEARCH

Naghanap ang customer ng service na ino-offer ninyo.

THEY FIND YOU

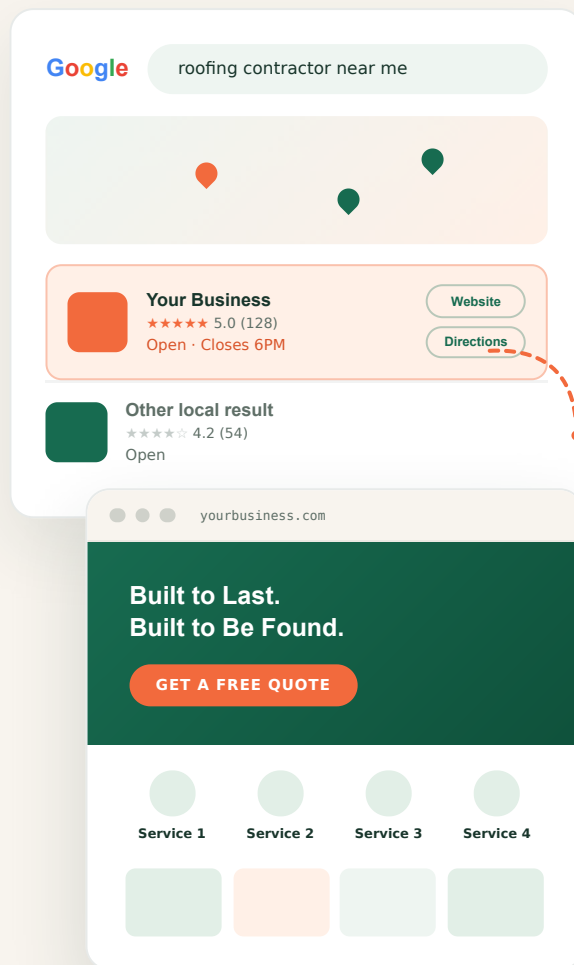

Lumalabas kayo online na may professional at malinaw na presence.

THEY CHOOSE YOU

Confident silang mag-inquire dahil klaro at mapagkakatiwalaan kayo.

We build digital foundations that connect your business to the right people, and turn **visibility** into **trust**, and trust into **growth**.

Sample visualization lang po ito, hindi actual client o Google screenshot.
Generic example para sa bawat proposal.

PREPARED ESPECIALLY FOR

Jhapher Malabanan Septic Tank & Declogging Services

01

MAS MADALING MAHANAP

Visibility sa Google Search at Maps.

02

MAS MADALING PAGKATIWALAAN

Mas malakas na trust mula sa unang impression.

03

MAS MADALING KONTAKIN

Consistent na details, isang click lang makaka-connect.

04

MAS MALAKING OPORTUNIDAD

Mas handa ang brand para sa susunod na inquiry at project.

STRATEGIC PLAN

Stronger Brand

Clearer Path

Lasting Foundation

WHERE THINGS STAND

Ang totoong status, sa isang tingin lang.

CURRENT STATUS

May proof at demand na

May public Facebook proof at malinaw ang services: septic siphoning, pozo negro, at declogging.

MAIN GAP

Kailangan ng NCR website

Separate ang NCR service area, kaya kailangan ng sariling website foundation na hindi CDO-focused.

BEST NEXT MOVE

Website-first proposal

Mobile-first site, service pages, area pages, proof gallery, at mabilis na booking/contact path.

Executive verdict

Malinaw ang opportunity ng Jhapher Malabanan Septic Tank & Declogging Services para sa NCR at nearby service areas. May public proof na sa Facebook at malinaw ang services, pero kailangan ng sariling NCR website foundation para hindi malito ang customer sa ibang area, competitor page, o social-only proof. Kaya ang recommended next step namin ay Website Foundation + Service Area Pages.

Hindi ito tungkol sa hype. Ang goal nito ay gawing mas madaling makita, maintindihan, pagkatiwalaan, at kontakin ang business kapag may urgent septic tank, pozo negro, o baradong linya problem ang customer.

Ang proposal na ito ay ginawa para makita ninyo kung ano ang problema, bakit ito importante, paano namin ito aayusin, at pinaka importante, ano talaga ang makikita niyo kapag tumuloy tayo.

May proof at demand na. Website-first proposal na ang susunod.

CLIENT OPPORTUNITY

Executive summary

May malinaw na demand ang septic at declogging services sa Metro Manila, Rizal, Cavite, Laguna, at Bulacan dahil urgent ang customer need. Kapag barado ang CR, puno ang septic tank, o kailangan ng pozo negro service, gusto ng customer makita agad kung available kayo sa area nila at paano tumawag.

Recommended path: Website Foundation + Service Area Pages

Isang polished, mobile first na website ang magbibigay sa Jhapher Malabanan NCR ng malinaw na homepage, service pages, service-area structure, proof section, booking CTA, at basic SEO foundation. Ito ang official hub para sa NCR customers, hiwalay at mas malinaw kaysa umasa lang sa Facebook posts.

BENEFITS

Ano ang makukuha niyo dito

- ✓ Magkakaroon kayo ng professional NCR website hub, hindi lang Facebook post ang unang hahawakan ng customer.
- ✓ Mas malinaw ang services: septic tank siphoning, pozo negro cleaning, at declogging.
- ✓ Mas madaling makita ang served areas, kasama ang Pasig as center area, NCR, Rizal, Bulacan, Cavite, Laguna, Cagayan de Oro, at Misamis Occidental.
- ✓ Mas mabilis ang contact path: call, message, at book service.
- ✓ Mas handa ang website para sa Google Search at future service-area content.
- ✓ Mas mababawasan ang confusion sa ibang Malabanan pages dahil consistent ang brand, phone, at location coverage.

NO FAKE PROMISES

Honest boundaries

- ! Walang guaranteed na number one sa Google.
- ! Walang guarantee na calls, leads, traffic, o immediate ranking. Gusto naming totoo ang inaasahan niyo.
- ! Walang fake reviews, gawa gawang project photos, o unverified license claims.
- ! Website-first ang proposal na ito: build, content structure, proof section, and launch readiness.

*Isang malinaw na plano, isang malinaw na simula para sa **buong foundation**.*

LIVE AUDIT FINDINGS

Ano ang nakita namin sa audit.

Isinalarawan namin ito sa simpleng client language: ano ang ibig sabihin ng bawat status, bakit ito mahalaga, at ano ang dapat sundan pagkatapos.

AREA	STATUS	CLIENT IMPACT	WE FORGE WEB RECOMMENDATION
Facebook proof	FOUND	May public post na nagpapakita ng septic/pozo negro services at phone.	Gamitin bilang support proof, pero hindi ito dapat ang only hub.
NCR website	MISSING	Separate ang NCR service, pero wala pang dedicated website path na nakita.	Gumawa ng mobile-first NCR website foundation.
Service areas	CONFIRMED BY FOUNDER	Malawak ang coverage, kailangan lang ayusin ang structure para hindi magmukhang kalat.	Gumamit ng hub pages para sa Metro Manila, Rizal, at nearby provinces.
Competitors	ACTIVE	May competitors na may service pages at broad coverage messaging.	Gumawa ng mas malinaw, mas trusted, at mas direct na website.
Website scope	FOCUSED	Confirmed na website ang current priority, not a listing cleanup project.	Keep the proposal centered on the NCR website foundation.
Project proof	ALLOWED	Pwede gamitin ang Facebook screenshots/video stills sa final PDF.	Ilagay sa proof section with honest source labels.

Kailangan pang kumpirmahin

Base ito sa live public research lang. Bago namin gamitin ang mga sumusunod bilang panghuling claim sa publiko, kailangan muna ng kumpirmasyon niyo:

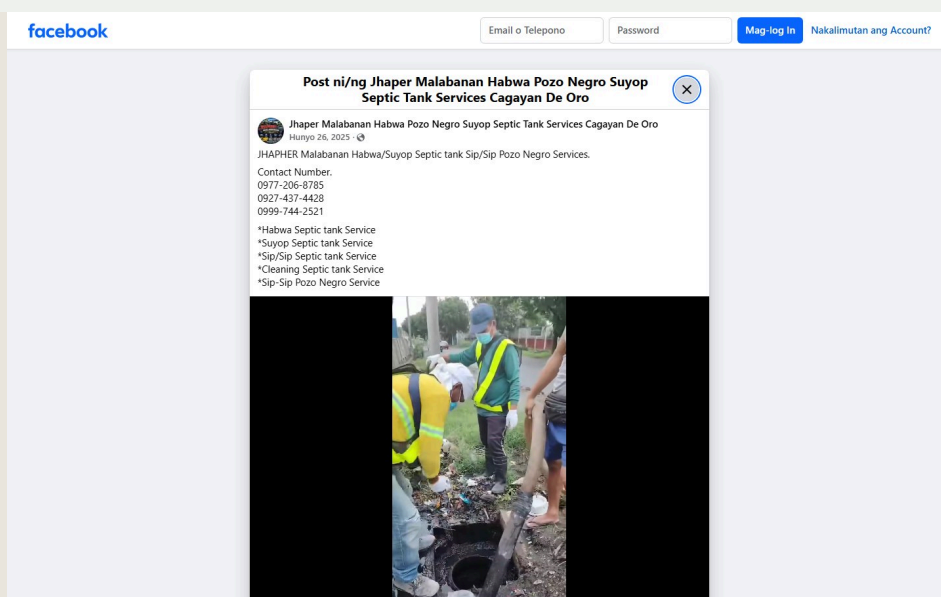

- ! Final logo or brand asset for the separate NCR website.
- ! Final website domain name, if already purchased.
- ! Confirm if 0999 744 2521 is the main call number, 0977 206 8785 is secondary, and 0927 437 4428 is Viber-only or also a regular call/SMS number.

2 sa 6 checkpoint ang kailangan ng aksyon ngayon.

LIVE AUDIT EVIDENCE

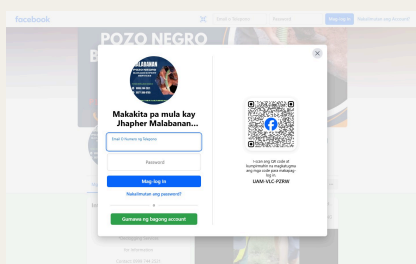

May proof na, pero kailangan ng sariling hub.

Hindi ito mockup. Ito ang aktwal na screenshot evidence mula sa live research. May social proof na, pero may friction pa sa customer journey.

Public service proof from Facebook

A public Facebook post shows septic tank, pozo negro, and cleaning services with contact numbers. Good proof exists, but it needs a cleaner website hub for NCR customers.

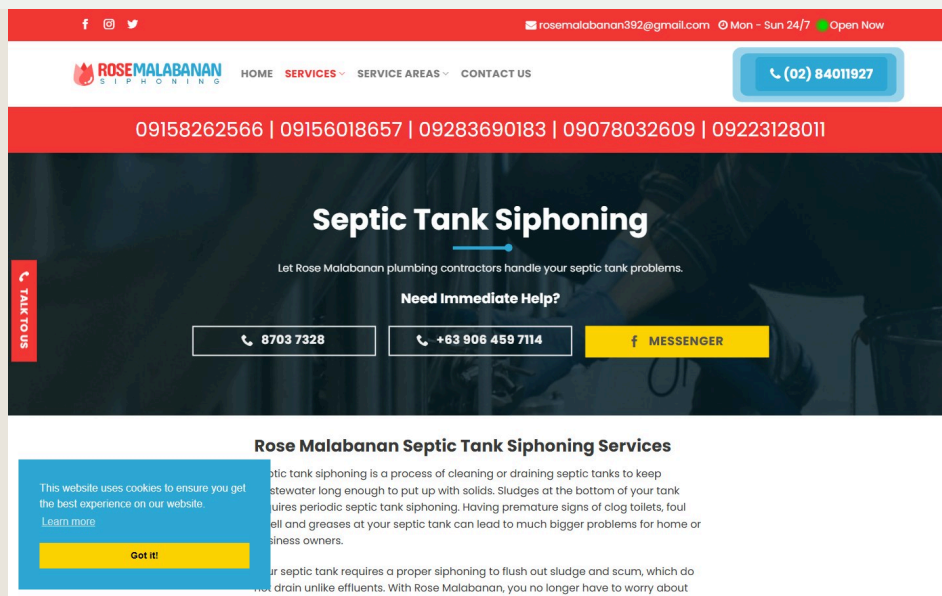

Facebook is useful, but gated

The Facebook page is partly visible but login-gated. Customers should not need Facebook login just to understand services, areas, and contact details.

OPPORTUNITY EVIDENCE

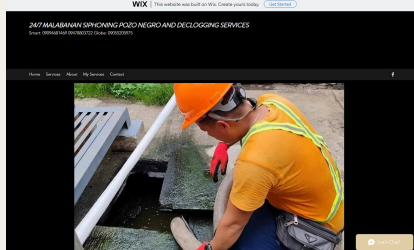

May demand at may kalaban na naka-position.

Ipinapakita ng competitor screenshots na may active service-area positioning sa septic at declogging space. Dito papasok ang mas malinaw na NCR website foundation.

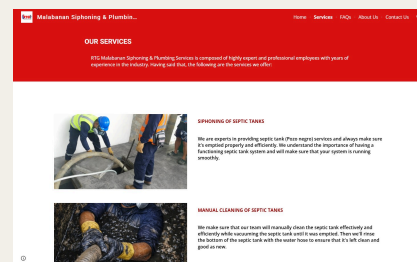

Competitors already structure septic service pages

Competitor pages already explain septic tank siphoning services with visible phone numbers and service messaging. Jhapher NCR needs a cleaner, dedicated version.

Broad-area competitors are visible

Other Malabanan pages are already presenting services and broad coverage online. This raises the trust bar for customers comparing providers.

Service pages are the competitive baseline

Competitors list service types like septic tank siphoning, manual cleaning, and declogging. Jhapher's NCR website should answer these same urgent intents better.

THE REAL ROOT CAUSE

Hindi lang ito tungkol sa isang blangkong domain.

Ang issue ay hindi kakulangan ng proof. Ang totoong dahilan ay ito.

May public proof na, pero wala pang malinaw na NCR website hub kung saan madaling makita ng customer ang services, service areas, proof, at booking path.

Dahil separate ang NCR service, hindi dapat umasa sa CDO-focused website o Facebook posts lang. Kapag may sariling NCR website, mas malinaw ang coverage, mas direct ang tawag, at mas madaling ikumpara ang Jhapher laban sa ibang Malabanan competitors.

KUNG WALANG MABABAGO

Kung walang mababago, narito ang mangyayari.

- ! Mananatiling Facebook-first ang customer journey.
- ! Pwedeng malito ang NCR customers sa CDO/Mindanao website positioning.
- ! Hindi malinaw agad kung aling areas ang served.
- ! Mas mauuna ang competitors na may service pages at area pages.
- ! Mawawala ang urgent customers na gusto lang tumawag agad.
- ! Hindi masusulit ang demand sa septic siphoning, pozo negro, at declogging searches.

Hindi ibig sabihin nito na late na. Ibig sabihin lang, ito ang tamang oras para ayusin ang foundation bago pa lumaki ang effort sa marketing.

ISIPIN NATIN

Ang urgent septic customer

Isipin natin. May homeowner o restaurant owner sa Pasig, Makati, o Antipolo na barado ang CR o puno ang septic tank. Urgent ito, kaya ang hinahanap nila ay mabilis kausap, malinaw ang service area, at may proof na marunong talaga sa trabaho.

NGAYON

Makakakita sila ng Facebook proof at ibang competitor pages, pero wala pang dedicated NCR website na mabilis magpakita ng services, areas, proof, at tawag button.

PAGKATAPOS NG FOUNDATION

Makikita nila ang NCR service page, phone number, service-area list, proof section, at booking steps. Mas madali silang tumawag agad.

Search: “septic tank siphoning Pasig”

Sample direction ito para maipakita ang klase ng customer na naghahanap. Hindi ito guaranteed ranking, lead, o traffic promise.

ANG VISIBILITY DREAM

Ganito namin gustong makita kayo ng customers online.

I imagine natin. May naghahanap ng septic tank siphoning o declogging sa Metro Manila o Rizal. Sa halip na malito sa maraming Malabanan pages, may malinaw na NCR website result na nagpapakita ng services, coverage, at contact path.

Ito ay direction at visibility strategy, hindi guaranteed ranking promise. Maraming factor ang nakakaapekto sa Google placement, pero kailangan munang tama ang pages, structure, at trust foundation ng website bago ito makipag compete.

Jhapher Malabanan NCR - Septic Tank Siphoning & Declogging Services

Septic tank siphoning, pozo negro cleaning, and declogging services for Metro Manila, Rizal, Cavite, Laguna, and nearby areas. Clear service areas, proof, and fast contact path.

[Septic Siphoning](#) [Declogging](#) [Service Areas](#) [Book Service](#)

SEARCH EXAMPLE

"septic tank siphoning Metro Manila"

POSSIBLE RESULT DIRECTION

Jhapher Malabanan NCR - Septic Tank Siphoning & Declogging Services

SAMPLE DESCRIPTION

Septic tank siphoning, pozo negro cleaning, and declogging services for Metro Manila, Rizal, Cavite, Laguna, and nearby areas. Clear service areas, proof, and fast contact path.

SUGGESTED PAGE LINKS

[Septic Siphoning](#), [Declogging](#), [Service Areas](#), [Book Service](#)

Sample visualization lang po ito. Hindi ito actual Google screenshot at hindi ito pangako ng exact ranking o placement.

ISANG WEBSITE, MARAMING PINTO

Hindi lang isang keyword ang pagkakakitaan niyo.

*Iba-ibang tanong, magkakaibang pinto, pero **iisang** brand sa bawat sagot.*

Hindi lang isang keyword ang magiging daan papunta sa inyo. Bawat importanteng page ay maaaring maging sariling entry point.

Q "septic tank siphoning Metro Manila"

→ [METRO MANILA SERVICE HUB](#)

Q "baradong CR Pasig"

→ [DECLOGGING PAGE](#)

Q "pozo negro cleaning Quezon City"

→ [POZO NEGRO PAGE](#)

Q "septic tank service Antipolo"

→ [RIZAL SERVICE HUB](#)

Q "Malabanan septic tank Makati"

→ [NCR BOOKING PAGE](#)

Ang goal ay itigil ang pag asa sa iisang page lang. Iba ibang customer, iba ibang tanong, iba ibang page ang sasagot, pero lahat babalik sa isang malinaw at kapani paniwalang brand.

ANG WEBSITE DREAM

Kapag binisita ng customer ang website ninyo, dapat malinaw agad.

Dapat masagot agad ng website ang mga totoong tanong ng shopper bago pa sila mag alinlangan.

- ✓ Available ba kayo sa area ko?
- ✓ Septic siphoning ba ito, declogging, o pozo negro cleaning?
- ✓ Paano tumawag o mag-book agad?
- ✓ May proof ba ng field work?
- ✓ Ano ang kailangan kong ihanda bago dumating ang team?

BAKIT SILA MAGTITIWALA

Apat na page na nagsasabing totoo kami, malinaw kami, kausapin niyo kami.

Services

Septic tank siphoning, pozo negro cleaning, at declogging.

Service Areas

Pasig City as center area, NCR, Rizal, Bulacan, Cavite, Laguna, Cagayan de Oro, Misamis Occidental, at listed cities.

Proof

Approved Facebook screenshots or field-work visuals with honest labels.

Book Service

Phone number, message path, and what details to send before service.

4 trust page. Isang malinaw na dahilan para magtiwala.

PROOF AND CONFIDENCE

Hindi pangako, may foundation na kaming nagawa for other businesses.

We Forge Web ay tumutulong sa Philippine service businesses na maging Google ready ang brand presence nila, based sa Davao City pero nationwide ang saklaw. Hindi ito ang unang beses naming gawin ito. Iba ibang negosyo, iba ibang industriya, pero parehong goal: ayusin ang online presence para mas malinaw, mas searchable, at mas madaling pagkatiwalaan.

Jhapher Malabanan Septic Services

Septic, siphoning & excavation

Every service named and explained in plain language

Jeff Lipa Construction Services

Construction, renovation & repair

Renovation, repair & new-build services clearly separated

Rose Malabanan Siphoning Septic Tank Services

Septic siphoning, pozo negro cleaning, declogging, desludging

Homepage answers real symptoms before technical terms

Buong company portfolio, kasama ang lahat ng project, available bilang hiwalay na attachment o sa kahilingan.

3 negosyo, 3 magkaibang industriya, isang parehong resulta: mas malinaw na presence.

WHAT WE FORGE WEB WILL CREATE

Foundation build blueprint

The goal

Gagawa kami ng professional, mobile first na NCR website na magpapaliwanag ng septic, pozo negro, at declogging services, magpapakita ng approved proof, at gagabay sa customers papunta sa mabilis na tawag o booking. Simple ang goal: mas madaling makita, maintindihan, pagkatiwalaan, at kontakin.

P0 Confirm and build the foundation

- ✓ Gagamitin ang confirmed business name, phone number, at served areas.
- ✓ Gagawa ng mobile first homepage para sa Jhapher Malabanan NCR service.
- ✓ Idadagdag ang clear service pages para sa septic siphoning, pozo negro cleaning, at declogging.
- ✓ Gagawa ng proof section gamit ang approved Facebook screenshots o field visuals.
- ✓ Ihahanda ang SEO title/meta patterns, sitemap, robots, at Search Console setup.

P1 Organize service areas

- ✓ Gagawa ng service-area structure for Pasig center area, NCR, Rizal, nearby provinces, Cagayan de Oro, at Misamis Occidental.
- ✓ Iha-highlight ang Makati, Taguig, Pasig, Quezon City, Antipolo, Cainta, Taytay, at other listed areas.
- ✓ Maglalagay ng FAQ content para sa urgent calls, access, scheduling, at service preparation.
- ✓ Ihahanda ang internal links para hindi manipis o spammy ang city pages.

P2 Later optimization

- ✓ Magdagdag ng completed-job photos kapag may owner-approved assets.
- ✓ Magdagdag ng city/service pages kung may enough real detail for each area.
- ✓ Magdagdag ng maintenance tips at emergency-prep guides para sa future SEO content.

12 concrete deliverables sa build blueprint na ito.

SA SIMPLENG SALITA

Ano ba talaga ang mga technical na term na ito?

Hindi namin gustong maligaw kayo sa jargon. Ito ang mga term na mababasa niyo sa proposal na ito, in plain language.

Sitemap	Listahan ng mahahalagang pages sa website na tumutulong sa Google malaman kung ano ang dapat i-check.
Robots file	Simpleng instruction file na nagsasabi sa search engines kung anong public pages ang pwede nilang bisitahin.
Canonical link	Ang opisyal na version ng isang page link, para hindi malito ang Google sa magkaparehong pages.
Metadata	Ang title at description na tumutulong ipaliwanag ang bawat page sa Google.
Schema	Karagdagang labels sa likod ng website na tumutulong sa search engines maintindihan ang business, services, FAQs, at contact details.
Search Console	Google tool na ginagamit para i-submit at bantayan ang website pagkatapos mag launch.

6 terms, ini-explain sa simpleng salita, para walang malilito.

ANO TALAGA ANG BINABAYARAN NIYO DITO

Hindi lang kayo nagbabayad para sa pages o design lang.

Ito ay investment sa:

- ✓ Propesyonal na NCR service website
- ✓ Mas malinaw na service message
- ✓ Mas mabilis na call or booking path
- ✓ Google ready na page structure
- ✓ Mas matibay na trust foundation
- ✓ Mas organisadong service-area coverage
- ✓ Website na pwedeng i-share sa Facebook at customers
- ✓ Foundation para sa future SEO, ads, and service-area content

“

Kapag may customer na may septic or declogging emergency, hindi sapat na makita lang ang phone number. Kailangan nilang maintindihan kung anong service ang offer ninyo, available ba kayo sa area nila, at bakit kayo ang dapat tawagan.

PROPOSAL

Investment options

Sadyang focused ang rekomendasyon namin. Hindi kailangan ng bloated launch. Kailangan ay isang credible website foundation: service pages, service-area structure, contact path, at proof section.

Visibility Review

Complimentary

Timeline: Delivered

- Brand presence audit at priority action list.
- Paliwanag sa simpleng salita kung ano ang gumagana at ano ang humahadlang sa growth.

Standard Project Value

PHP 30,000

Timeline: Normal WFW rate

- Base website foundation: PHP 18,000.
- Strategic service-area and SEO-ready structure: PHP 7,500.
- Basic logo cleanup + website cover graphic: PHP 4,500.
- This is the normal value for this scope before the approved discount.

Founder-Supported Website Foundation Rate

PHP 14,800

RECOMMENDED

Approved strategic support rate from PHP 30,000 standard value. WFW support: PHP 15,200.

Timeline: ~14 working days

- Premium homepage at clear service positioning.
- Core service pages for septic siphoning, pozo negro, and declogging.
- Service-area section for Pasig center area, NCR, Rizal, Bulacan, Cavite, Laguna, Cagayan de Oro, and Misamis Occidental.
- Basic SEO ready title/meta structure, sitemap/robots, at launch guidance.
- Call, message, and booking CTA placement.
- 2 substantive revision rounds pagkatapos ng unang usable scaffold.
- 14 day post launch bugfix support para sa delivered scope.

Foundation + Local Service Pages

Future upgrade

Timeline: ~21 working days

- Lahat ng nasa Foundation.
- Deeper city/service pages for high-priority areas.
- Expanded FAQ and emergency-prep content.
- More proof/gallery sections kapag may approved assets.

Care & Updates

PHP 1,800 / month

Timeline: Monthly after launch

- Basic care and update support after launch.
- Minor page/content updates within agreed monthly scope.
- Content refreshes kapag may bagong photos, proof, or offers.

START CLEARLY

Payment terms and next step

FOUNDATION PAYMENT STRUCTURE

Kabuan: PHP 14,800 Downpayment: PHP 10,000 deposit received bago magsimula**Balance: PHP 4,800 bago mag launch****Included**
